

● **HOW TO PARTICIPATE IN PAVO TOKEN SALE.**

**Step-by-step guide**

A blue circle with a white outline, positioned at the top center of the page.

## HI THERE!

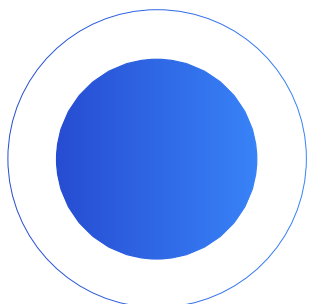

Want to buy Pavo tokens? That's great! Thanks for the attention to our project. We prepared a step-by-step instruction for you. Follow it. In case of uncovered questions, we're glad to help you in our live [Telegram group](#)

### **PARTICIPATION IN THE TOKEN SALE INCLUDES 6 STEPS:**

- Account registration (probably you've passed through it already)
- Looking at our excellent converter to calculate amount of tokens and your bonus
- KYC
- Depositing the funds
- Buying tokens
- Tokens' withdrawal

We'll go through each step in detail to make the process smooth and easy.

## LET'S BEGIN.

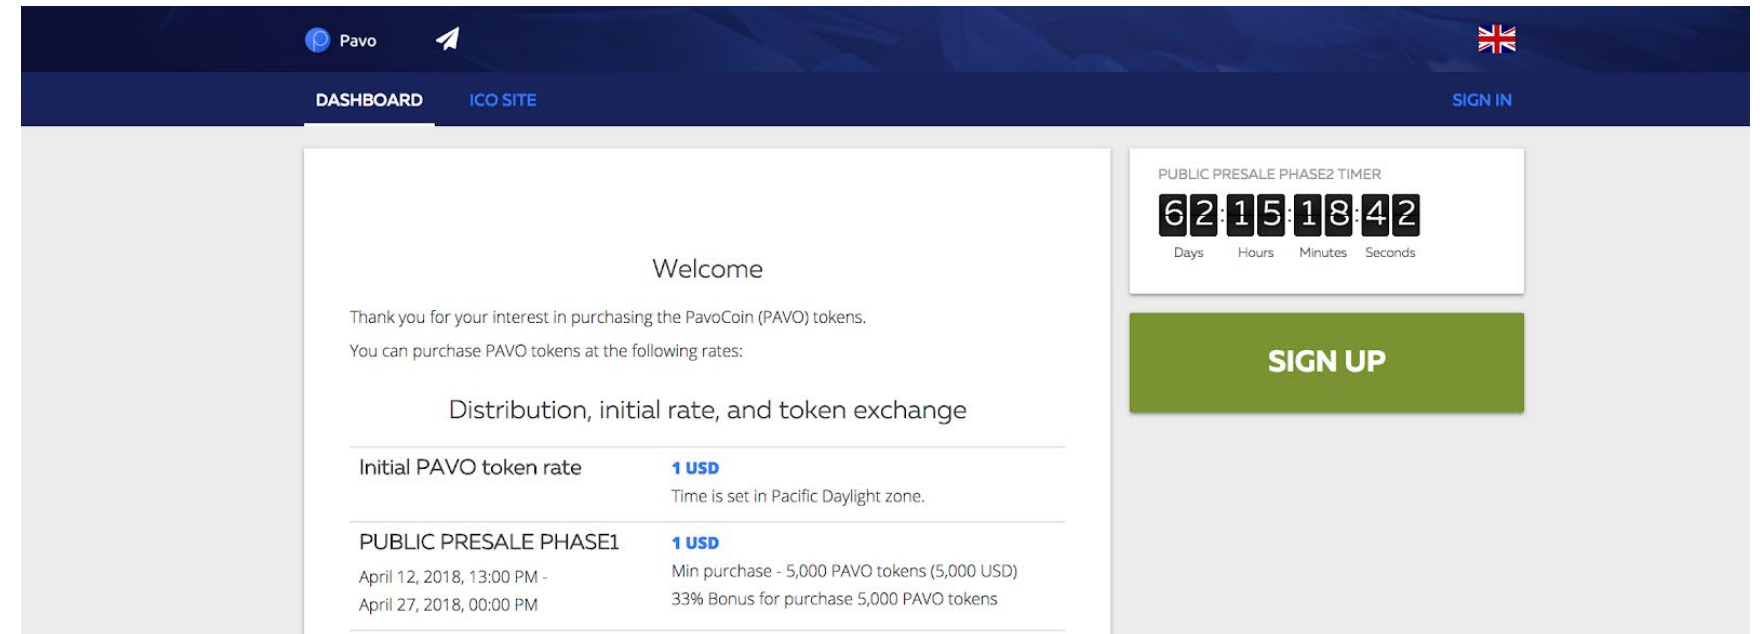

# STEP 1. Account registration

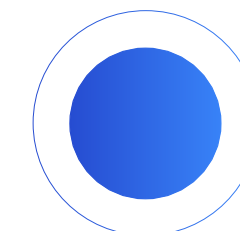

Everything starts with registration — let's get acquainted!

**1.** Go to the [tokensale.pavocoin.com](https://tokensale.pavocoin.com) and click Sign up button

**2.** Enter your Email, choose a password (don't forget to confirm it and agree to the terms of services) and push Continue button

**3.** That's it — now you have an account on the Pavo token sale platform. Are you ready to buy some tokens? Let's move on!

## STEP 2. How much should I pay? How many tokens can I get for my money?

If you know the amount of money you want to deposit, but not sure about tokens volume you'll get — use our internal convertor for fast and easy calculation. You'll see how much you can spend in any currency and what amount of tokens and bonuses you'll get depends on day of sales and the number of tokens you want to buy.

### HOW TO USE THE CONVERTER:

- Enter the specific amount of Pavo tokens on the left side of the form.
- Choose your payment currency: Bitcoin, Litecoin, Bitcoin Cash, Dash, ZCash, EUR, CHF or USD.
- That's it — on the right side you can see the amount you have to pay in chosen currency and down below — your bonuses for purchase.

Have a look at how our converter works. As easy as ABC.

1. If you want to pay in BTC

100 PavoCoin	→	0.0134 Bitcoin
0% BONUS: 0		TOTAL: 100

2. If you want to pay with Ethereum

100 PavoCoin	→	0.1679 Ethereum
0% BONUS: 0		TOTAL: 100

3. If you want to pay with USD

100 PavoCoin	→	100 USD
0% BONUS: 0		TOTAL: 100

In order to participate in tokensale, you need to verify your identity and beneficial owners of funds. Please, provide us with some personal information and supporting documents, which will be used in preparation of verifying your identity and beneficial ownership of funds in accordance with Swiss regulations. For this purpose, an appointment for a video identification session will be scheduled at a later stage. Verification at [pavocoin.com](https://pavocoin.com) is very simple and intuitive. Follow the steps below to complete it successfully. If you have any questions, please contact support team [support@pavocoin.com](mailto:support@pavocoin.com).

## STEP 4. Make a deposit

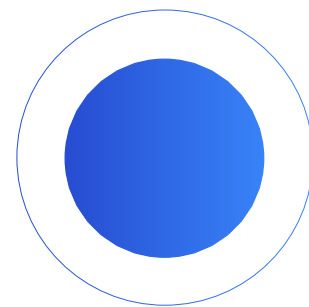

After you calculate how much you should pay for your portion of tokens let's move to next step — deposit. There are 3 different options to make a deposit.

### IMPORTANT:

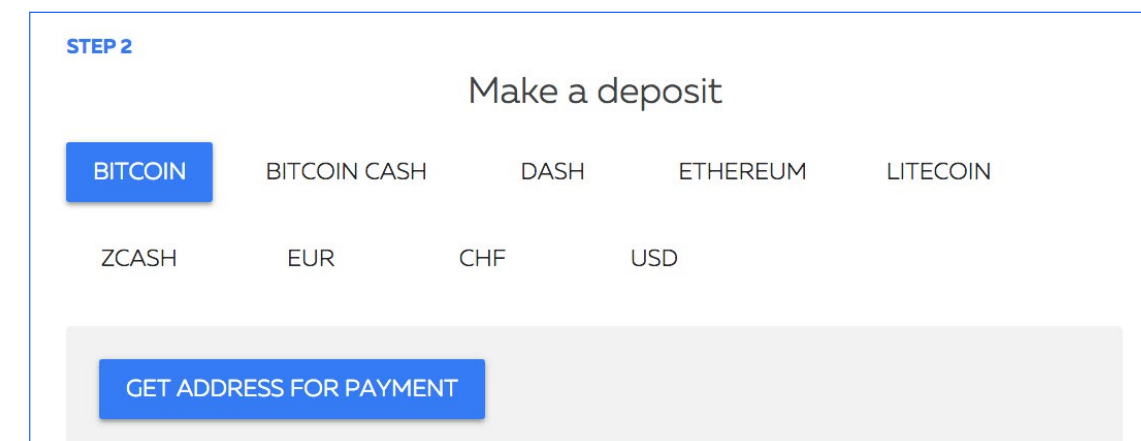

Please note, that depositing funds to your account doesn't mean the purchase of the Pavo tokens. After the funds are deposited, you need to complete Step 5 to purchase Pavo tokens.

If you want to purchase Pavo tokens with any altcoins (no BTC), please note that the price of Pavo tokens would be calculated at the time of actual purchase of the Pavo tokens, not at the time of depositing funds to your account. We'll use actual rate every time, when you make a purchase.

### OPTION 1—CRYPTOCURRENCIES (THE EASIEST ONE)

To make a deposit in cryptocurrency, you need to choose your type of currency and generate your personal unique address for payment.

After this go to your wallet/exchange/mining pool account and send funds to this address. Please make sure your deposit equals or exceeds the minimum purchase amount.

Funds will appear in your Pavo account only after the transaction gets a few confirmations from the network. This can take from 10 minutes to 2 hours and more, depending on network current load and your transaction fee.

# STEP 4. Make a deposit

## OPTION 2— PAY IN USD

If you want to deposit USD to your account, you need to generate an invoice.

Click Generate invoice button and fill in the fields.

Invoice with a unique number and all of the payment information will be sent to your email. You can pay in bank with international transfer . Don't forget to add "Pavo invoice number" (example: # INV-Pavo-1111) to the payment note.

Payment will take a few days to proceed — you can ask about expected payment time in your bank.

Please note that deposit of funds is not a purchase of Pavo tokens. You need to complete Step 5 and purchase the required number of tokens with the deposited funds.

**STEP 2**

### Make a deposit

BITCOIN   BITCOIN CASH   DASH   ETHEREUM   LITECOIN

ZCASH   EUR   CHF   **USD**

**GENERATE INVOICE USD**

### Generate invoice

# STEP 6. Set your wallet for withdrawal

1. Click on the 'Enter ETH wallet' on the right-side menu.

2. Enter your email and ETH wallet. Please, make sure, that your wallet support ERC-20.

## ETH Wallet

Enter your ETH wallet which you will use to withdraw purchased PAVO tokens.

**Important: Your ETH wallet must support ERC-20.**

**Please review your ETH wallet carefully. Once you set it, you will no longer be able to edit it (except by contacting support).**

ETH Wallet

UPDATE ETH WALLET

3. Save the changes.

Tokens will be distributed to your account after the end of ICO — this applies to purchased tokens, bonuses for the purchase or deposit.

If you didn't get tokens, please, contact our Support:

[support@pavocoin.com](mailto:support@pavocoin.com).

What do you do with tokens? You can withdraw it to your wallet or keep it for some time on your Pavo account (deadline for withdrawal is a few days after the end of ICO or hardcap). The withdrawal process is automated, but you'll need to push the button to confirm payment.
